No infant SGZ Molecular Function Network

category

- calcium channel regulator activity
- diacylglycerol binding
- G protein-coupled receptor binding
- hormone activity
- hormone receptor binding
- neuropeptide hormone activity
- neuropeptide receptor binding
- peptide hormone receptor binding
- phosphatase inhibitor activity
- phosphatase regulator activity
- protein phosphatase inhibitor activity
- protein phosphatase regulator activity
- protein tyrosine phosphatase activity
- receptor ligand activity
- signaling receptor activator activity
- SNARE binding
- syntaxin–1 binding
- syntaxin binding
- transmembrane receptor protein phosphatase activity
- transmembrane receptor protein tyrosine phosphatase activity
